

„The Reflector“ - English project by 2nde S1

The 2nde S1 had to work on analysing newspaper front pages and were then put to task! As group work, they produced the front page of their own class newspaper (or what they imagined it to be). In spite of some mistakes that were overlooked, the final result is impressive and very funny. Well done to them and thanks to Mikolai Gütschow for taking care of the layout!
