

Handing out of Europass certificates

Today we handed out Europass certificates to the pupils who participated in the Erasmus projects with Gouda in the Netherlands and Patras in Greece.

The participation of the pupils of the Franco-German Gymnasium in international activities is now well established in our educational strategy, which promotes intercultural encounters and cultural experiences throughout Europe.

Upcoming trips include Spain, Croatia, Belgium, France and individual exchanges in Austria, Spain and Italy.

These certificates can be included in their CVs to underline the international commitment of our students during their time at the Franco-German school.
