

# Erasmus+ mobility in Croatia

Kofinanziert von der  
Europäischen Union

Our Erasmus mobility in Zagreb marks the last stage of our project „The Soil under my Feet“ which will have taken us across Europe, from Patras to Madrid, by way of Brussels, and not forgetting Saarbrücken of

course.

As we look back, this project has allowed us to introduce 32 students to Europe and to make friendships that will contribute to a European community spirit, a core value of the Erasmus+ programme.

And what's next?

It is time to think about a new project that will benefit a new generation of students.

Erasmus is dead, long live Erasmus!
