

Comenius trip to London

Last week, Comenius students sampled British life in London.

On the menu, getting to know other students from the partner schools in Spain, England, Hungary and Turkey, visiting London landmarks, recording a radio show at the BBC, making sculptures with waste materials, having a go at cricket and to crown it all, watching the amazing show “Stomp” in a West End theatre.

The city of London has won a few more hearts, new friendships have been made, and this visit in Heston Community School will certainly remain in every participant’s memory.
