

Erasmus+ Time to roll up our sleeves

Time to roll up our sleeves for our **Erasmus+ project** after a two-year Corona-induced sleep.

From the 8th until 11th November, teachers from Croatia, Greece, Italy, Spain and the French-German High School met up to kick-start our project « The Soil under my Feet ».

The purpose of this event was to work out the details of our project :

- Hosting in Corona time.
- Enacting educational activities we will ask the pupils to carry out.

And Mr Sofias trained us on Arcgis, a powerful programme to gather, analyze, and present data that will be useful to our project.
