

Cambridge Certificates 2025

After thorough preparation classes in spring and summer 2025, 55 of our students passed last year's University of Cambridge English Examinations in May / June 2025.

16 pupils went for the FCE (First Certificate of English, Level B2 of the CEFR), one of whom even reached the C1 level. 39 pupils tackled the CAE (Certificate of Advanced English, Level C1 of the CEFR) – seven of whom had such outstanding results that they reached C2 – the highest possible level within the Common European Framework of References for Languages.

As tedious as the odd prep class in lesson 10 after a full day (with tons of homework still waiting for you) may have been at the time – it has turned out to be time well invested.

We are, once again, very proud and happy that such a large group of candidates passed the examinations – you are now equipped with a very prestigious certificate which will most certainly be of great value for you in your future!

Congratulations to all of you!
